

As the local partner of Promemoria, a renowned Italian luxury furniture and interior design company, we provided skilled local artisans for the fabrication and installation of carpentry, glazing, metalwork, marble, and electrical systems. In addition, our team oversaw on-site management and facilitated seamless communication between local personnel and Promemoria's representatives from Italy.

By leveraging local expertise and resources, we ensured the project was delivered on time and within budget—while maintaining the exceptional quality and craftsmanship synonymous with Italian standards.
